**Subject:** FW: NRC's proposed rulemaking for ISR facilities

Hi Douglas,

Ingrid let us know that NRC is considering a proposed rulemaking for ISR facilities. She gave us this link below to the website. I will add "for ISR facilities" to the agenda.

*Valois*

**Subject:** RE: meeting to discuss Ex. 5 Deliberative Process (DP) in UIC Class 3 permit

Do you meeting with staff and/or management? If you're looking for staff, that would be me. If you want BC, add Tom Peake and Dan Schultheisz. I left you a message. There is some additional information you may want to be aware of. For example, NRC is making a decision as to whether or not to move forward with their own rulemaking on ISRs. That decision is expected to be made mid-March by the NRC commissioners. I can give you a little more detail on that if you want to give me a call.

Here's a link if you want to read NRC materials in your copious free time.

Link to SECY 19-0123, which contains the paper on NRC ISR regulatory options and other material:

**Subject:** meeting to discuss Ex. 5 Deliberative Process (DP) on UIC Class 3 permit

Hi Ingrid,

## Ex. 5 Deliberative Process (DP)

Our next steps after meeting with you all are to briefing the R8 and Drinking Water Protection Division directors. R8 and HQ will likely have to brief our office directors and the OW AA. We're not sure yet if the NRC meeting will happen before or after the AA briefing yet. We'll get more guidance on the timing of the NRC meeting after we brief our division directors. We will keep you all in the loop about our immediate next steps as we move forward towards the NRC meeting since they have requested OAR also be included.

Thanks, Jill
